MOMENTS COLLECTION

by LLADRÓ LAB

**Fascination, complex simplicity,
reborn heritage.**

Moments is Lladró's first collection of tables, translating the brand's essence into a new lifestyle proposal. As decorative accessories, Moments tables are little pieces of jewelry for Home, fitting any room, indoor and outdoor environments.

Moments comes in two decors, one inspired by the shadows of delicate hand painted leaves on white porcelain surface and the other by crystallization, in white or blue. As a proof of Lladro's continuous innovation, the use of crystallization technique transforms each piece into a unique creation. The fascinating pattern created on top of each table is a work of art by itself.

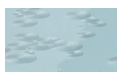

The line also offers customization to match personal style, hence provide a bespoke experience. Each table can be tailor made with the choice of four different leg options. A version with an integrated bowl allows to place any personal objects or to enjoy the magnificent resonance of porcelain by using it to amplify the music.
