IGUAZU

IGUAZU

Source *of life*

Swallows flying under the rain, playing in the drops of water and composing a subtle choreography in which living creatures become one with their surroundings and create a series of little magical microcosms. Scenes that mesmerize us as we observe their dynamics, shapes and colors with utter fascination.

Ecosystems, the architectures of unique universes, are at the heart of this collection, its very source of inspiration. This series of almost infinitely customizable chandeliers called *Iguazu* focuses on the values of nature and the animal kingdom. Using porcelain components, *Iguazu* proposes lighting fixtures which are a lasting expression of the beauty of our surrounding world.

And the compositions permitted by *Iguazu* are almost as varied and countless as nature itself. Different “ecosystems” can be created by exchanging the swallows for butterflies, fish, bubbles or bluebells. The cords can be chosen between steel or gilded finishes and adapt to different lengths, while the ceiling fixtures are customizable in different colors.

The *Iguazu* chandelier is composed using porcelain pieces handcrafted following an entirely artisan process.

Cloud

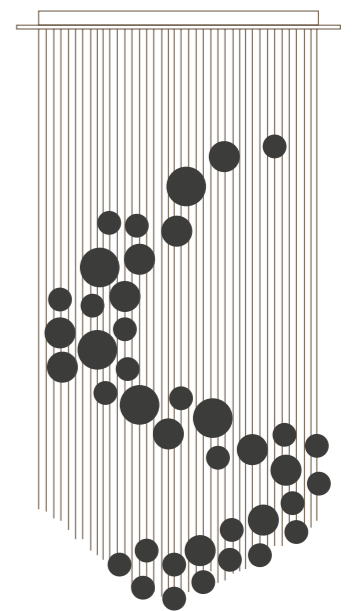

Inverted cone

Waterfall

Spiral

Lighting up the world with craftsmanship and design.

Lighting up the world with porcelain.

Nothing creates a greater impact on an interior than lighting.

Lladró's lighting collection combines the elements of light and earth to achieve a delicate balance of creative artistry and handcrafted technique. Ensuring warmth and decorative strength with organic inspiration. Chandeliers and tabletop, wall or floor lamps that go far beyond their use function. Customizable and all-enveloping lighting that takes advantage of the exceptional qualities of porcelain.
