A BRIGHT IDEA BY

MARCANTONIO

LIGHTING UP THE WORLD WITH **PORCELAIN**

A BRIGHT IDEA BY MARCANTONIO

ABOUT MARCANTONIO Born in 1976, Italian artist and designer Marcantonio is known for his sculptural and storytelling-driven approach to design. Trained in fine arts, he began as a set designer and sculptor before focusing on art and design in 2001.

His work explores the relationship between nature and artificiality, often with a surreal and ironic touch, transforming everyday objects into design sculptures. He has collaborated with prestigious brands such as Armani, Seletti, Qeeboo, Natuzzi, and Mogg, creating iconic collections.

Among his most celebrated pieces are his animal lamps—designs that bring light and life together in unexpected ways.

A BRIGHT IDEA

At Lladró we make the ordinary extraordinary. The classic glass lightbulb is given an unexpected twist in the collection *A Bright Idea*, turning it into porcelain. Under the watchful eye of the Italian

designer Marcantonio, this essential everyday object is reborn as a unique, creative and sustainable design.

These bulbs not only provide lighting but also symbolize the eureka moment when a brilliant idea is born and celebrate the bond between creativity and light. Handcrafted in porcelain, they provide a warm and original touch to any interior, while further exploring the infinite possibilities of this noble material.

THE ART OF LIGHTING, ACCORDING TO MARCANTONIO

Known for a multidisciplinary focus that combines design, art and nature, Marcantonio reimagines the light bulb in two surprising models: Feather Bulb and Oak Bulb. In the former, the surface is brought to life by delicate feathers; in the latter, the porcelain is decorated with the leaves of an oak tree in bas relief. When lit, the patterns come to life, with warm enveloping reflections that give any interior a special character.

PORCELAIN REDEFINING THE ESSENTIAL

This collaboration turns such a common everyday object as a light bulb into an artistic and functional design, taking porcelain beyond its conventional boundaries. Each piece stands out for its meticulous craft process and for the ability to play with light, demonstrating how a sustainable natural material like porcelain can transform something so ordinary into a magical creation.

Include non dimmable 3000°K LED bulb
and E26/E27 adapter for G9 LED bulb

OAK BULB
01024389 CE/UK
01024398 US/JP
(E27/E26)
20 x Ø15 cm
7 3/4 x Ø6"

Include non dimmable 3000°K LED bulb and E26/E27 adapter for G9 LED bulb.
